My Dear

Allow me to comment
the enclosed reports and evidence;
particularly the evidence of
the superiority of the pipe
distribution, over the cheapest
of the water mains to
your notice. I think we are
in a fair way of getting practi-
cal applications of the system
in the instance of about ten
towns. If you should wish to
have other copies in a few days
they will be available to you.

Your Sincerely faith-
ful servant

Edwin Chadwick
