East London Company, 13,121-8; 13,157-8; 13,201-2.
Essex, 12,889-91; 12,903; 12,907-17; 12,971; 12,975; 12,983-9.
Kent, 12,519-5; 12,581; 12,845-7; 12,859; 12,888-70.
Outside authorities, 595-51.
Surrey, 508-24; 4772-3; 6881-95; 12,294-6; 12,494-7; 12,507-12.
West Ham, 13,121-8; 13,157-8; 13,201-2.
Smith, Mr. E. J., agreements with companies, *See under Smith, Mr. E. J., scheme of.*
Southwark and Vauxhall Company, Wimbledon Supply, 25,545-6.
- Albert** arbitration case, 10,963.
- Albmenoid Ammonia**, definition of, 22,116-7; 22,228-31.
- Aldbury**, wells at, failure of, 29,961-7.
- Allotments**, compulsory sale of land, for 11,371.
- Amalgamation:**
Advantages of, 6315-24; 6521-3; 24,220-30; 25,774-82.
Control:
Necessity for, obviated by, 6256-7.
Subsequent to, 5240-2; 8006-12.
Difficulties of, 15,685; 6325-3; 27,249.
Lambeth and Southwark and Vauxhall districts, amalgamation of proposed, 126; 11,955-8; 11,991-2.
Limited form of suggested, 5938-9.
Possibility of, 7997-8002.
Proposals as to, 6168; 6173-86; 6256-8; 6306; 6331-2; 6333-7; 18,017-35; 25,761-6.
Rates, effect of on, 6333-8.
Views as to, generally, 10,915-20; 11,952-8; 12,065-9; 20,589-98; 22,534-5; 24,066; 24,080-6; 25,794-800; 27,651-8.
West Middlesex and New River Companies, Bill for, 123-7.
- America:**
Mains, depth of in, 18,523-6.
Municipal management in, 20,331-62.
Supply, rate per head of, 1580-94.
Waste in, 20,331-40; 20,347-61.
- Amwell Hill and Amwell Marsh**, springs and streams at:
Depletion of, 13,162; 14,535-9; 14,555-61; 18,577-639; 22,615.
Original source of supply of New River Company, 22,571.
- Analysis of Supply:**
Balfour Commission, recommendations of as to, 21,772-80.
Filters, acting inefficiently during period of, 28,918-19.
Flood water, method of followed, 21,675-85.
Grand Junction Company, system of, 20,503-5.
London County Council, grant of powers of to, 25,030.
Massachusetts, experimental stations at, 28,853-64; 28,880.
Reports of, independent, 21,470-2.
Results of, 6483-90; 6538-49; 21,462; 21,466-9; 28,775.
Samples:
Collection of, 23,900-3.
Points from which taken, 21,467-8.
Southwark and Vauxhall Company, system followed by, 25,320-7; 25,552-63.
Standard of purity, 21,491-5; 21,510.
Stations, experimental proposed, 29,151-2.
Thames Conservancy, system followed by, 22,003-5; 22,031-3; 22,064; 22,111-2.
Views as to different Analyses, 6483-90; 6538-40.
(*See also Microbes.*)

- Annuities**, payment by, in cases of purchase:
Middlesborough Water Works, 23,215-6; 28,219; 28,234.
Municipal Authorities, 28,216-22.
Views as to, 2495-502; 2520-3; 2641; 2657-60; 4337; 24,765-8; 28,211-36.
- Aqueducts:**
Chelsea Company, aqueduct at Old Putney Bridge, 27,494.
Microbes in, 21,663-4.
Staines Scheme, 20,109-14.
Cost of, 14,982; 1590-2; 19,153-70.
Subsidence in, 21,696-8.
Welsh Scheme, *see under that title.*
- Arbitration:**
Auditor, expenses of arbitration cases, 14,143-57.
Banbury, Mr., scheme of arbitration under, 13,731-8; 14,889-92; 13,981-14,015; 14,039-61.
City Corporation, views of as to, 6812-22; 7516-42.
Committee, Mr. Plunket's, Clauses before, 808-45; 10,950-4.
Duties and position of arbitrator, 10,748-64.

 Municipal purposes supply, charges for, 13,171.
 Purchase, probable effect of on, in, 13,169-70.
 Trade supply, charges for, 13,192-200.
 Valuation of Property Act, application of to, 13,227-30; 13,248-52.

Reservoirs:
 Commission, Lord Balfour's, statements of, as to, 24,016-7.
 Existing capacity of, 18,161.
 Increase in, 23,853.
 Cost of, 24,028.
 From 1864, 23,853-65.
 Necessity for, 24,029-42; 24,054-71.
 Proposed, 16,233-6; 19,125-54; 24,071-2; 24,355-6.
 Capacity of, 16,220-1; 16,376-9.
 Water required to fill, 16,339-46.
 Leyton district, reservoirs in, 13,412; 13,424-9.
 Necessary to supply 30 million gallons daily from Lea, 16,147-57.
 Sufficiency of storage capacity, 9422-4.
 Supply from storage from July to October 1899, estimate, 16,066-70.

Returns:
 Capital:
 Distribution of, 23,891.
 Future expenditure of, 24,275.
 Financial Return, 24,444.
 Population, 24,490.
 Rateable value of properties supplied, 24,490.
 Supply, 23,890; 24,490; 30,211A.
 Waste, reduction by meter system, 30,211A.
 Works, 23,890.

Revenue per 1,000 gallons, total annual supply, 3612.

St. George's-in-the-East, constant supply to, 30,216-9.

Severance, views as to, 24,230-4.

Shoreditch (parish of St. Leonard):
 Cisterns, use of, in, 8799; 8835; 8902-5.
 New River Company, transference of supply to, resolution of as to, 8854-6.
 Supply to, 8783.
 Sinking fund, payment of, 24,543-9.

East London Company—cont.

Smith, Mr. E. J., agreement of, with Company, 13,974-8; 24,528-42; 24,564-6.

Southwark and Vauxhall Company, supply from, estimated, July to October 1899, 16,092.

Staines Reservoirs Scheme, views as to, 23,879-80; 24,223-30.

Stock not issued to shareholders at par, 2275-6.

Supply:
 Amount available for, 23,847-53; 24,294-8; 24,318-32.
 Constant supply, 8785; 21,244-5; 23,665-7; 30,216-9.
 Estimated from July to October 1899, 16,108-15.
 Increase in, 24,517-21.
 Failure of. (*See* that subheading.)
 Future requirements of:
 Cost of, 24,299-300; 24,320.
 Estimate of, 15,21-23; 24,275; 24,292-8; 24,318-23.
 Lea River. (*See* that subheading.)
 London, county of, supply to, 13,063-9.
 Mixed character of water, 12,969.
 Non-domestic purposes, obligation as to, 29,337.
 Number of supplies, 24,123.
 Obligations as to, 13,656-66.
 Quality of, 21,534.
 Rate per head, decrease in 1891-1897, 21,249.
 Returns as to, 23,890; 24,490; 30,211A.
 Short supply in 1894-5, 24,073-4.
 Storage, estimated from July to October, 1899, 16,093-107.
 Total, estimated from July to October, 1899, 16,063.
 Thames, draught on, 23,198-9.
 Thames and wells, supply from, estimated from July to October 1899, 16,071-88; 16,271-301.

Waste:
 Cutting off supply in event of, 24,108-10.
 Difficulties as to, 21,122-4.

Fittings:
 Removals of, 24,080-4.
 Testing and stamping of, 24,089-110.
 Inspectors, reception of, 24,086-9.
 Meters for detection of, 24,084-8; 29,345.
 Return as to saving in supply resulting from, 30,211A.

Wilful, during failure of supply, 1898, 24,075-80; 24,085.

Wells:
 Drought of 1898, effect of on, 16,042-7.
 Drowning out of, 23,985; 23,991; 24,006; 24,387-90.
 Essex, wells situated in, 12,945-54; 12,964; 13,006-10; 13,043-5; 13,060-1; 13,299; 24,003-4.
 Brackish water of, 19,237-42; 23,103-11.
 Expenditure on, Acts authorising, 24,031-2.
 Lea Bridge and Walthamstow, 24,381-2.
 Leyton district, wells in, 13,411-2; 13,431-2.
 New, construction of, 13,574-6; 19,767-71.
 Powers as to, 11,795-6; 19,155.
 Pumping from:
 Increase in, 19,155; 23,993-24,013; 30,239.
 Lea, effect on, 16,415-61.
 Returns as to, for 1898, 24,359-61.
 Rest level of, 16,392-400; 18,901-33.
 Situation of, 16,392-4.
 Supply from, 15,16-50; 13,574; 23,848; 23,891-6; 24,378-80.
 Balfour Commission, estimate of, 13,006-10; 23,999; 24,000-2.
 Pumping from, 30,239.
 Estimate of in 1937, 24,294.
 Excess over amount pumped, 23,978-98; 24,005; 24,009-11.
 Machinery for increase of, 23,993-8; 24,012-3.

West Ham:
 Bulk, supply in, to, 13,190.
 Constant supply in, 13,174-6.
 Domestic supplies, number of, 13,086.
 Essex Water Board for, views as to, 13,165-8.
 Failure of supply in, 13,107; 13,172-3.

East London Company—cont.

West Ham—cont.
 Purchase:
 Government, purchase by, views as to, 13,147-57.
 Local authority, purchase by, 13,254-5.
 London, payment to, for deprivation of supply, 13,142-6.
 Price, fixing by Government, views as to, 13,203-13.
 Severance, views as to, 13,129; 13,136; 13,139-41.
 Supply to, 13,085.
 Amount of, 13,091-103; 13,131-4.
 Trade supply to, 13,087-9; 13,092.
 Water Rate Definition Act, 1885, application of to, 13,103; 13,177-83.
 Works, return as to, 23,890.

East Surrey Company:
 Croydon rural district, supply to, 12,197-240; 12,240; 12,299; 12,306.
 Purley, supply to, 12,194; 12,197; 12,291; 12,297; 12,306.
 Supply per head, 20,341-3.

East Wood Green, County Council Election, water question at, 10,494-5.

Edinburgh:
 Gas companies in, over-lapping districts of, 11,302-6.
 Supply, rates charged, 21,076.
 Water Trust in, 563-5.

Elan Valley Scheme:
 Aqueduct, length of, 18,254.
 Cost of, 18,235; 18,262.
 Per million gallons, 9805.
 Geological conditions of, 17,564-76.
 Quality of water, 28,884; 28,893-8.
 Quantity supplied, 18,261.
 Reservoirs, number of, 19,636-49.
 Supply, quantity, 18,261.
 Watershed, purchase of, 14,772-6; 14,911-2; 19,654-82.

Electric Lighting Stations, Islington, water supply to, 8,697; 8,705; 8,713-4; 8,763-4.

Elstree, Works at:
 Cost of, 10,425-32.
 Mains, 14,799-895; 14,803-25; 18,291.
 Reservoirs, 9809-18; 18,289.
 Storage capacity, 9793-4; 18,290.

Enfield:
 Royal factory at, supply to, 2,938-1.
 Supply to, 866.
 Urban district council, overlapping area of, 942.
 Supply of, 10,497-9.

Wells, depreciation in, 22,943-57; 22,982-5; 23,086-94.

Rest level of, reduction in, 22,940-57.

Enfield Mill, East London Company, intake of, at, 23,955-67; 23,971.

Engineers:
 Expenses of, added to capital account, 14,139.
 Southwark and Vauxhall Company, remuneration, 14,191.

Engines:
 Grand Junction Company, return as to, 26,375-8.
 Lambeth Company, reserve of, 27,309.
 West Middlesex Company:
 Increased expenditure on, 25,593-6; 25,903-8.
 Provision of, for future requirements, 26,122.

Essex, county of:
 Bulk, supply in, views as to, 12,992-5; 12,957-8; 13,000-5; 13,040; 17,157-73.
 Cisterns, supply of, 13,028; 13,055-7.
 Constant supply not afforded, 13,028-33; 13,049-62.

East London Company:
 Abstraction from, 12,939-54.
 Complaints as to, 13,028-33; 13,055.
 Rates of, 12,892-4; 13,011-4; 13,035-6; 13,045-7.
 Supply to, 12,883-6; 12,937-8; 13,028-33; 13,049-62.
 Quality of, 12,976-82.
 Wells of, in, 12,945-54; 12,964; 13,006-10; 13,043-5; 13,060-1; 24,033-4.

Horseponds, supply from, 12,965-6.

Lea River, abstraction from, right to, 12,994-6.

Essex—cont.

Lea valley, abstraction from, 12,923-33; 12,935; 12,938-42; 12,951-4; 12,960-5; 13,006.
 London County Council, arrangement of County Council with, 538-543.
 Metropolitan Counties Water Board Bill, views as to, 12,914-7.
 Metropolitan water authority, constitution of, proposed, 12,903-6; 12,958.
 Population, 12,878-80.
 Purchase:
 London County Council, purchase by:
 Agreement of Essex County Council as to, 12,889-91; 12,903; 12,907-14; 12,971; 12,975; 12,983-9.
 Financial effect of, 12,955-6; 12,997-9.
 Rates, increase in, as result of, 12,892-5; 13,000-5; 13,038-9.
 Re-purchase, payment for, 12,967-9.
 Resolutions of County Council as to, 12,914-7; 13,024.
 Views as to, 12,895-7; 13,023-5.
 Sources of supply in event of, 12,921-31.
 Views of County Council as to, generally, 13,038; 13,042.
 Rateable value of, 12,888.

Rates:

Basis of, 13,035.
 Increase in, as result of purchase, 13,038-9.
 Severance, no proposals as to, 10,007-9.
 South Essex Waterworks Company, wells of in, 13,299-301.
 Supply, 12,969:
 Drought and frost, effect of on, 13,023-33.
 Future requirements of, 12,964.
 Quality and quantity of, 12,976-82.
 Sources of, in, 12,965-6.

 Brackish, water of, 19,237-42; 23,103-11.

Equalisation Rate in London, 4525-49; 6776; 7396-8.

Equalisation of Water Rates. (See under RATES charged.)

Erith, Thames flow over chalk, at, 18,921-33.

Evaporation, allowance for in Staines Reservoir Scheme, 20,774-808.

Expenditure:

Immediate future, 1301-18; 5114-25; 5728-34.
 Increase in, probable, from purchase by L.C.C., 24,639-44; 24,681-3; 24,790-1; 25,175-82.
 Necessary between 1931-1948; 1318-23.
 To provide for requirements of 1948, 1318.
 Per million gallons average daily supply, comparison of companies, 3540-82.
 Total to 1931, beyond that already authorised, 1806-17.

Experts, management by board of, 6307; 6432A; 20,407-82; 25,695-7.
 (See also evidence of Mr. Banbury in Part II.)

F.

Failure of Supply. (See under Supply.)

Farrer, Sir Thomas:

Memorandum on legislation relating to gas companies, 4769.
 Report on recommendations of Sir M. W. Ridley's Committee, 4684.

Federation of Companies, suggestions as to, 24,981-5028; 25,113-6; 25,220.

Fenwick, Mr., Middlesex, severance of, views as to, 11,254-7.

Fever:

Death rate in London, 8131-4; 8151-3.
 Typhoid, see that title.

Fieldes Weir, flow of Lea, at, 23,114; 23,357-64; 29,434-50; 30,080-176.

Filey, Gas and Water Bill, 11,296-7.

Filters:

Area:
 Existing, for Thames water, 1768.
 Necessary for supply of 300 million gallons from Thames, 1770.
 Cleansing, 19,368-72; 28,915-20; 21,739-70.
 Conveyance of water direct to, 18,103-5; 21,587-9.
 Fish-spawn, choked by, 26,201-3.
Flood water:
 Conveyance direct to, 21,586; 22,141-6.
 Effect of on, 21,739-70; 26,204-38.
Increase in:
 Necessary for supply of 300 million gallons from Thames, 1772.
 Necessary for supply of 300 million gallons daily from Thames, cost of, 1774.
 Wells, separate desirable, 28,868; 28,904-14; 29,146-50; 29,153-5.

Filtration:

Analysis:
 Experimental stations for proposed, 28,853-64; 28,850.
 System of, 21,667-72; 28,900-3; 28,918-9.
 Commission, Lord Balfour's, regulations as to proposed, 1138; 1202-5; 1725-8; 29,135-45.
 Control over, 28,870-1.
 Government, powers of, 21,589-604.
 Inspection by medical officer proposed, 11,944.
 Legislation as to, 28,813-7; 28,824; 28,828-9; 28,878-9; 28,881-3; 29,156-60.
 Measures of, adopted, 28,844-9.
 Water examiners, powers of, 21,771-831.
 Croydon supply, not filtered, 12,187.
 Efficiency of, 21,853; 28,920.
 Improvement in, 21,473; 21,844-7; 28,814-7.
 Inefficiency of, 8644; 8655-79.
 Introduction of, 27,476-8.
 Kent Company's water, filtration unnecessary, 12,573; 28,461.
 Management of, by single authority, 21,660-6.

Microbes:

Destruction by filtration, 21,556-61; 21,571-2.
 Filtered water, number in, 21,712-38; 21,848-50; 21,912-5.
 Thames water, proportion in, 21,473-541; 21,562; 21,568; 21,646; 21,652-6; 28,775-97.
 Flood water, number of in, 21,979-97A; 28,802-12.
 Spring water, increase of in, during filtration, 28,807.
 Private, unnecessary, 21,832; 21,834.

Rate of:

Change in inadvisable, 21,759-63; 21,819; 21,822-3.
 Colour affected by increase, 29,224.
 Gauging, 25,328-32; 25,564-8; 26,230-49; 28,866-7; 29,172-81.
 Sand, filtration by, 22,146-50; 22,818-9; 29,185-8.
 Standard of purity, 25,620-1.
 Surrey, severance, arrangement as to, in event of, 17,348-53.
 Thames, amount required when river low, 17,844-6.
 Wells, separate, desirable, 28,868; 28,904-14; 29,146-50; 29,153-5.
 Welsh scheme, necessity for, 17,812-7.
 (See also under titles of Companies).

Financial Returns:

Chelsea Company, 27,730.
 East London Company, 24,444.
 Grand Junction Company, 26,380; 26,465.
 Kent Company, 28,514.

Hertford, county of, views as to, 15,272.

Insurance, desirable as means of, 16,227-30; 16,735; 16,777-83.

Kent Company:**East London Company:**

Available supply from, 16,353-64.

Drought of 1898, supply to during, 15,047-8; 15,220; 15,227; 15,368; 15,985-8; 15,989-92.

Engines, breakdown of, 16,762-5.

Pumping power, maximum, 16,761-5; 16,799-802.

Scheme II.:

Connexions to be made under, 16,751-9; 16,794-7.

Objections to by, 16,737-40; 16,775-6.

Position of under, 16,737-41.

Surplus supply available, 16,749-50; 16,774; 16,790; 16,804.

Source of, 16,784-9.

Lambeth Company:

Selhurst well, 15,869.

Surplus supply for, 15,842-56; 15,861.

Legal powers necessary for, 15,497-514.

London County Council, views of as to, 15,200.

Metropolitan water companies, central committee of suggested, 15,640-55; 15,679-84.

Necessity for, 15,056-7; 15,082-92; 15,200-9; 15,441; 15,547; 15,579; 15,567-70; 15,697; 15,793; 16,222-6.

New River Company:**East London Company:**

Drought of 1898, supply to during, 15,045-7; 15,053; 15,217-24; 15,368-9; 15,961-2; 16,158-63.

Charges for, 15,371; 15,375.

Supply to part of district suggested, 15,377-9.

Main from Staines, importance of in, 16,983-5.

Scheme II., supply available for, 15,255-76.

Surplus supply for, 16,869.

Practicability and advisability, 15,016-21; 15,545-6.

Purchase:

Large scheme inadvisable in view of, 16,975.

Price, effect of on, 16,962-5.

Intercommunication—cont.

Rates, effect of on, 16,928.

Scheme I., 15,027:

Comparison with Schemes II. and III., 15,054-5; 15,058-61.

Amalgamation, best scheme in event of, 16,930-42; 16,952-5; 16,977-80.

Temporary purposes, best scheme for, 15,067; 15,977-80.

Cost of, 15,062; 15,073-4.

Description of, 15,033.

Filtered water provided by, 15,071-2.

Pressure under, 15,615-20.

Supply available under, 15,075; 15,094-118.

Works involved by, 15,069-75.

Scheme II.:

Advantages of, 15,611-4; 15,726-7; 15,587; 16,574-7.

Battersea:

Connexion with Nunhead, 16,728-31.

Works, suitability of, 15,211-6.

- Receipts:
Rents, 29,353.
Tolls, amount of, 29,377-9; 29,382.
Total, 29,400.
- Water rights of, 23,893-6; 23,901-4.
Companies' powers to supply by pumping, 23,905-7.
East London Company, action as to minimum, 23,908-10.

Lea River:

- Abstraction from:
Essex and London, claims compared, 12,994-6.
In 1898, 15,255-72.
In 1892-3-4-5-6, daily average during each month, 1043-6.
Legal draught by companies, 1094-1108; 23,116-21.
- Act of Parliament—River Lea Water Act 1855, 1096; 16,401-14; 16,462-6; 23,120; 23,893-907; 29,427-30; 29,479-80; 29,491; 29,517; 29,532; 29,542-3; 29,587; 29,685; 29,702.
- Analysis of, 29,627.
Bed of river, nature of, 16,821-5.
Exhaustion of, 23,145.
Flood, quantity of water in, 16,121-3.
Flow of:
Fielde's Weir, flow below not recorded, 29,695-8.
Gauging of, 29,431-50; 29,659-65; 30,070-5; 30,145a-62.
In 1897:
August 1897 to December 1898, diagram showing, 23,114; 23,125-62; 23,365-77.
During drought, 15,998-16,015.
In 1898, 15,264-72; 16,828-30; 20,170-9; 22,873; 23,113-47; 23,357-64.
August 1897 to December 1898, with storage of 2,225 million gallons, and draught by East London Company of 32½ million gallons per day, diagram showing, 23,114; 23,125-62; 23,365-77.
Comparison with flow in 1864, 30,967-120; 30,144; 30,163-76.
January, August, and November, flow during, 16,237-66.
Natural and actual flow, 23,357-64.
Rainfall, effect of on, 22,873-6; 23,010-5; 30,121-9; 30,210; 30,134-43.
Three Mills Weir, flow over, 29,468-74; 29,527; 29,547-53.
(*See also* subheading Navigation).
- Head-level fixed at Three Mills Weir, 29,546-7.
Intakes, position of on, 1019-24.
Intercommunication scheme, alternative for increased storage, 23,160-2.
Map, official, of river, 29,917.

Lea River—cont.

- Navigation:
Bow Bridge, re-building in event of raising level of river, 29,549-54.
Bromley Lock:
Flow of river at, 29,42-5.
Level of river at, 29,504-5.
Pumping station at, 23,916-7.
Childs, Mr., report of on, in 1893, 24,349.
Commission, Lord Balfour's, evidence before as to, 24,340-4.
Cook, Mr., evidence of before Committee on East London Company's Bill, 1894, 24,345-9.
Drought of 1898, effect of on, 16,016-35; 16,401-14; 24,333; 29,443-625; 29,618-20; 29,656-75.
Future of, views of conservancy as to, 29,670-5.
Limchouse Cut, 29,453.
Bypasses, construction proposed, 22,700-2.
Commission, Lord Balfour's, evidence as to before, 24,340-5.
Condition of with full supply for, 29,502; 29,514-33; 29,676-85; 29,696-9.
Difficulties of, 24,341-9; 29,453.
Dredging operations, 29,648-55.
Drought of 1893:
East London Company, pumping by during, 29,556-98; 29,609-12; 29,702.
Effect of on, 29,451-620.
Regent's Canal Company, purchase of water from, 29,600-14.
East London Company:
Pumping of supply for, 23,917; 23,920-1; 23,928.
Storage scheme of, effect of on, 29,656; 29,696-7.
Lea Bridge Weir, waste of excess over, 29,687-95.
Old Ford Lock, weir at, advantages of, 29,621-5.
Pollution of, by storm outfall at Bow, 24,345-9; 29,638-40.
Thames, pumping direct from proposed, 29,500-1; 29,615-7; 29,702.
- Old Ford Lock:
Pumping into pond above, 29,569; 29,593-606.
Weir at, 29,621-4; 29,634-6.
Pumping to supply water for, 15,273-6; 23,916-76; 29,569; 29,593-606.
- Supply for:
Complaints as to, 24,338-9.
Average required, 29,507-9.
Average sent down, 29,510-2.
In 1898, 24,334-7.
Statutory amount, 16,401-14; 16,462-6; 24,333.
Trades using, 29,373-6.
- Pollution of, 18,382-7.
Funds for dealing with, 29,626.
Hertford sewage, 18,384; 29,422.
East London Company, arrangement as to, 29,421.
Lea Conservancy, action with regard to, 29,387; 29,397-8; 29,416-25.
London County Council's storm outflows, 1836-45, 24,345-9; 29,638-40.
Dredging expenses, contribution to by London County Council, 29,652-5.
Stratford, pollution at, 29,628-47.
- Regent's Canal Company:
Permanent supply from, negotiations for, 29,613-4.
Purchase of water from in 1898, 29,600-14.
- Storage on:
Authorised and constructed, 23,125; 23,365-9.
Expenditure on:
Supply of 52½ million gallons per day, expenditure necessary for, 1795-6.
Thames, comparison with, 24,054-70.
- Supply from:
Available supply, 17,819-20; 17,823.
Binnie, Sir A., estimate of supply available in 1931, 1297.
Commission, Lord Balfour's, Report of as to, 12,969; 13,006-10; 14,647-8; 20,703.

Lea River—cont.

- Supply from—cont.
Fielde's Weir, gauging at, 17,917-21.
Future requirements, 23,145-55.
In 1937, estimate, 24,294.
Average daily:
From 1881 to 1897, 20,686.
In 1892-3-4-5-6, 1043-6.
In 1897, 9209; 9218.
Quality of supply, 29,627.
Tributaries of, 29,663-9.
Depletion of, 14,548-9.
Drought of 1898, effect on flow of, 24,350-4.
Position of, 24,030; 24,037-44.
Waltham and Enfield, Royal Factories at served by, 29,380-1.
- Wells:
Position of with regard to, 30,177-8.
Pumping, effect of on, 13,569-73; 14,509-66; 16,302-38.
(*See also under* East London Company and New River Company.)

Lea Valley:

- Authorities for supply of water in, 5261-6.
Sewage, alteration of present system deprecated, 21,836-9.
Supply required outside Thames and Lea basins in 1981, estimate, 1296.
Tributaries of Lea. *See under* Lea River.
Water authorities in, 5261-6.
- Wells and springs:
Abstraction from, daily average during each month of 1892-3-4-5-6, 1047.
Beardmore, Mr., evidence before Royal Commission of 1868, 22,897.
Lea Bridge Well:
Depression of, 19,186-96.
Height and rest level, 24,378; 24,381-4.
Inflow of sea-water, possibility of, 19,197-243.
Hydraulic connexion with water of chalk springs and streams, 18,686-727.
Position of, 1026-35.
Pumping, effect of:
On river, 13,569-73; 14,500-66; 16,302-38.
On wells, 18,547-933; 19,163-243.
Rest-level, slope towards London, 18,902-33.
- Supply from:
Available, 17,823.
Binnie, Sir A., estimate of supply available in 1931, 1297.
Commission, Lord Balfour's, estimate of, 12,969; 17,819-20; 20,709.
New wells and works required to bring supply up to requirements of, 1797-1800, 19,766-72.
Future supply for London, ground east of Lea basin, consideration of unnecessary, 19,182-5.
(*See also* East London Company and New River Company, subheadings Wells.)

Lead, action of water on, 21,866-7; 21,897-901.

Lee, quinquennial valuation of 1895, result of, 28,535.

Lee, Mr. C., evidence of, before Mr. Beckett's Committee of 1852, 3642; 24,932-41.

Leeds:

- Profits of supply, 21,345.
Purchase of water undertakings, 59.
Rates, 21,071.

Legal and Parliamentary Expenses:

- Chelsea Company, 27,659-64; 27,666-73; 27,721-2.
East London Company, 14,134-6; 24,464-82.
Grand Junction Company, 26,468-76; 26,480.
New River Company, 22,453-5; 22,686-700.
West Middlesex Company, 25,648-58; 25,783-7.

Leicester:

- Failure of supply, 20,929-31.
Profits of supply, 20,997; 21,345.
Application of, 21,396-7.
Rates, 10,701; 24,656-94.

Lennard, Sir J., purchase by London County Council, views as to, 12,693-70.

Lewisham, quinquennial valuation of 1895, result of, 28,325-8.

Leyton Urban District:

Acreage of, 13,378.
 East London Company, supply to, 13,376.
 Complaints as to, 13,351; 13,384-5; 13,420-3.
 Constant supply not afforded, 13,051; 13,352-4.
 Proceedings with regard to, 13,385-95.
 Failure of, 13,381.
 Quantity of, 13,113-4.
 Sources of, 13,411-2.
 Growth of district, 13,330.
 Houses, number of in, 13,379.
 Population, 13,377; 13,380.
 Purchase, views as to, 13,396-410.
 Rateable value, 13,377.
 Reservoirs, situation of, 13,424-9.
 Sewage, pollution of streams by, 29,638.
 Valuation of Property Act, application of, 13,415-9.
 Wells, situation of, 13,431-2.

Light, effect on microbes, 21,533-41; 21,562-4; 22,235-46.

Limehouse Cut. See under *Lea River, subheading Navigation.*

Limekiln Terrace Well, depletion of, 29,857-65; 29,872; 29,893.

Limpsfield and Oxted Company, overlapping area of, 918-9.

Liverpool:

Filtration of supply, 8575; 8578; 25,568.
 Management, cost of, 19,800; 19,806-8.
 Microbes, increase of in mains, 21,636-9.
 Profits, application of, 21,397.
 Rate-in-aid, levy of, 4300-4; 20,327; 20,611; 20,971-5.
 Rates:
 Collection of, system of, 28,627-34; 28,640-1; 28,657.
 Meter supply, 4296-9.
 Southwark and Vauxhall Company, comparison with, 24,686; 24,695.
 Supply, quality of, 1628; 20,390-3.
 Vyrnwy scheme:
 Aqueduct, length of, 18,254.
 Cost of, 9805; 18,252; 18,255; 18,262.
 Dam, length of, 18,281.
 Flow of stream, 18,158.
 Supply, capacity of, 18,259.
 Watershed, purchase of, 19,650-82; 28,884-96.

Llangorse Reservoir Scheme, expenditure involved in, 14,921.

Loans:

Borrowing powers of Metropolitan Water Companies and London County Council compared, 2673-9; 2680-91; 6004-23; 13,703; 13,826; 13,832; 13,964-7; 20,313; 26,293-4; 27,044-58.
 Richmond Corporation:
 Raising of, 12,344-50.
 Repayment of, 12,412-22.

Local Authorities:

London County Council Purchase Bills, clause as to transfer to, 28,440-4.
 Pressures, control over, 25,378-89.
 Purchase by, views as to, 12,558-90; 12,627-34; 12,643-51; 12,654-64; 12,672-3; 12,838; 12,855; 13,025-7; 13,038; 13,043; 13,254-5.
 Rates:
 Charged to, 4266a-71a.
 Levied by, 3961-4000.
 Reservoirs, inspection, 12,145-8; 12,179-80; 12,217-8; 22,215-36; 26,719-21.

Local Government Board:

Abstraction by companies, power to grant exemption from limit undesirable, 28,719-20.
 Auditor, powers in relation to, 14,128-9; 14,133; 14,171.
 Cisterns, flushing, inquiry of 1895 into size of, 6096.
 Control by Department of proposed, 11,941; 11,967-79; 11,993-12,009; 23,783-9; 27,558-627; 27,634.
 Experts, employment of, 6307; 6432a.
 Existing powers of control, 5141; 6095-6.
 Flood water, exclusion of, powers with regard to, 21,951-4.
 Hackney Inquiry. See that title.
 Inquiry, powers of suggested, 1821-4.

Local Government Board—cont.

Intercommunication Bill, powers under, 15,012; 15,389-91; 15,415-32; 15,515-9; 15,339-91.
 Intersale, powers as to, 15,417-8.
 Thames, further draught on, 15,419-32.
 Mains, action as to depth of, 5149-53.
 Railway Commissioners as controlling authority, comparison with, 1821.
 Report of 1873-4, auditor's, as to premiums on capital, 2341.
 Report of 1891-2, issue of capital by West Middlesex Company, 2285.
 Sinking fund, proposals as to, 50.

Loch Katrine Water:

Colour of, 21,530.
 Lead, effect of on, 21,807.
 Matter in suspension in, 19,378.

Lock, construction at Hammersmith, Putney, or Wandsworth proposed, 23,464; 23,639-40.

London, Bishop of, estate of, rebate on, 3505-7; 3896; 26,517-26.

London, Chatham, and Dover Arbitration Case, 10,933.

London, City of:

Market dues in, 7399-400.
 New River Company, preferential rates in, 3896; 3909-13; 4454-70; 4627-40; 6731-67; 6797-8; 7644-7; 8013-6; 21,057; 22,315-20; 22,334-66; 22,481-3; 22,667-70.
 Income, loss to resulting from, 22,746-8.
 Opposition to exaction of full charge, 22,734-41.
 Re-building, rate altered in cases of, 25,744-5.
 Water Meter Bill, proceedings in connexion with, as to, 22,684-5.
 Properties in London and Extra London, supplied by metropolitan companies, number and rateable value of, 4915-6.
 Provincial towns, position not analogous, 3255-63; 6289-92; 25,691-2; 25,781.
 Purchase:
 Contribution to price of, 4424-5.
 Effect of on, 4454-99; 5671-4.
 Rateable value of in 1896, 4423.
 Rates, future, for water supply in, 5383-94.
 Rates paid by, 6774-7.
 Equalisation Rate, contribution to, 4525-19; 6776; 7396-8.

London City Corporation:

Control, see under that title.
 County Purposes Committee:
 Report of 1893, 6544-5.
 Report of 1897, 6645-53.
 Gas and Water Committee, 1884, Report of, 6550-3.
 Inquiry of 1890:
 Evidence as to Stock Exchange values, 3931-33.
 Report of, 6585-95; 7181-8; 7194-7.
 Interests not identical with those of county of London, 87-92.
 London County Council:
 Agreements with:
 Of May 13th, 1891, 7203-8.

Return as to, 25,092; 25,310; 25,511; 29,354.
Wandsworth, supply for street watering in, 8925-44.

Southwark and Vauxhall Company—cont.**Thames:**

Overdraught from, 1892 to 1896, 1495-1500.
Power of draught on, 15,616-9.
Supply from, 25,496-504.

Thames Conservancy, action of against Company in 1897, 1500-1.
Wandsworth street watering, supply for in, 8925-44.

Waste:

Fittings, powers as to, 25,356-69.
Mains, waste caused through leakages in, 19,014-9; 24,906-9.
Meter systems, reduction in by use of, 29,353-65.
Return as to, 29,354.

Wells:

Amount available from, 25,509.
Future supply, importance of for, 25,416.
Merton and Honor Oak, wells at, 25,409-14.
Pumping, effect of, 25,415.
Sinking, powers of, 25,618-9.
Streatham, supply from, 14,652-4; 17,221; 25,408; 25,414.

West Middlesex Company:

Agreement with, non-existent, 25,290-302.
Competition with, non-existent, 25,160-2; 25,218-20; 25,283-5.
Overlapping area, 25,098-102; 25,127-37.
Plant and pipes of on Surrey side, 25,306.

Wimbledon, supply to:

Agreement as to, 25,545-6.
Constant supply not afforded, 30,219-25.

Works:

Return as to, 25,511.
Severance of, difficulties of, 25,342-8.

Springs:

Anwell Hill and Anwell Marsh, springs at:
Depletion of, 13,462; 14,535-9; 14,555-61;
18,577-639; 22,615.

Original source of supply of New River Company, 22,571.

Chadwell Spring. See that title.

Hanworth Gravel Springs, 24,294.

Hydraulic connection of wells with, 18,686-727.

Lea, springs feeding, 29,663-9.

Microbes in spring water, 28,807.

Paris supply, 9126-31; 9137-53; 9171-83.

Municipal purposes, 9182-6.

Works for, 9126; 9137-53.

Thames, large proportion of spring water in, 21,839-43.
(See also Wells.)

Staffordshire Potteries, supply to, 2189.**Staines Scheme:**

Act of Parliament, Staines Reservoirs Act, 1896, 80; 1004-8; 1355; 10,985; 11,389; 15,496; 15,522; 15,533; 15,840; 20,015.

Advantages of, 10,855-6; 10,860; 10,866-73; 10,876; 10,884; 10,888; 18,220-5; 18,227-37; 19,928; 20,083; 20,165-9; 20,236; 20,240; 20,241; 21,863-7.

Aqueducts:

Construction of, dates of, 20,109-14.
Cost of, 14,982-15,002; 19,533-70; 20,109-14.
Size of, 14,707-13.

Bill of Session 1896:

House of Commons, special resolution on, 4935.
London County Council, resolution on, 4915-9.

Capital:

Cost of raising, 19,899-912.
Necessary for supply of 300 million gallons, 19,760-76.

Companies not participating in:

East London Company, 23,879-80; 24,223-33.
Southwark and Vauxhall Company, 23,052-64; 25,107-111.

Conduit:

Capacity of, 14,691.
Cost of, 17,476-509; 17,658; 17,675-9; 22,304-12; 22,432-42; 22,832-3.

Continuation of, 19,899-900.

Control over companies as to, advisability of, 22,517-33; 22,543.

Staines Scheme—cont.**Cost of—**

Aqueduct, 14,982-15,002; 19,533-70; 20,109-14.

Binnie's, Sir A., Estimates, 1683-5; 1749-93; 9738-85; 2024-41; 9321-90.

A. Supply of 165 million gallons per day with 200 million gallons at Teddington, 9322-38; 9738-85; 10,332.

B. Supply of 185½ million gallons per day with 200 million gallons at Teddington, 9339-52.

C. Supply of 185½ million gallons per day with 250 million gallons at Teddington, 9356-61; 9125-6.

D. Supply of 330 million gallons per day with 203 million gallons at Teddington, 9562-72.

E. Supply of 300 million gallons per day with 250 million gallons at Teddington, 9373-9.

Basis of estimates, 2221-41; 10,390-401.
Capital cost, comparison with capital cost of existing supply, 1321-34; 1327; 1354.

Comparison with Welsh Scheme, 9549-730.
Distribution charges, 9562-76.

Lea Valley. *See that title.*

London:

East and West, rate of supply, comparison, 4034-40.

Private supplies in, 4020-3.

Proportion of supply within and without Administrative County of London, 998.

Supply—cont.

Maximum, daily, percentage over average, 1573-4.
 Maximum month, excess over average, 1266; 10,340.

Meter, supply by. *See that title.*

Obligations of companies under Statute, 30,212.

Outside counties, claims as to, 5491-7; 18,432-70.

Population supplied by Metropolitan Water Companies, 993; 26,465-4; 26,569.

Pressures. *See that title.*

Progressive leaflets on, 6492-500.

Quality of supply. *See that title.*

Quantity of, complaints as to, 703-6.

Rate per head:

America, certain cities of, 1580-94.

Annual and monthly average, total of all companies for each month of 1896, 1246.

Annual and monthly rate per head supplied by each company, 1891 to 1897, 1451-2.

Binnie, Sir A., estimates of, 1254; 1575; 9492.

Bradford, steps taken to reduce, 1467-71.

Bramwell, Sir F., views as to, 1715-9; 20,341-6.

Commission, Lord Balfour's:

Evidence as to before, 1245.

Report on, 19,002-5; 20,341-4.

Deacon, Mr., evidence of, before Sir M. W.

Ridley's Committee, 8430-7.

Domestic supply and trade supply, proportion of, 21,152-4.

East London Company, 21,249.

Glasgow, 1578-9.

In 1829, 1849, 1856, and 1857, 1244.

In 1891-1892, 1244; 21,246-8.

Increase of, 1260; 20,672-87; 21,250-3.

London County Council, resolution of as to in 1892, 1245.

New River Company, 1529-31.

Paris, 1595-8.

Purchase, effect on, 1022.

Reduction by prevention of waste, 21,107-63;

21,235.

Requirements, future:

Binnie, Sir A., views as to:

Expenditure, immediate necessity for, 9391-406.

In 1931, average daily, 1514-45; 1599-602.

Commission, Lord Balfour's. *See that sub-heading.*

Hawksley, Mr., views as to, 20,687-716.

Legislation, recent, and evidence before Parliament indicating quantity required, 1242-75.

Reform needed, 6516-20.

Reserve capacity of, 8395-406.

Sources of supply, 999.

Adequacy of existing sources alleged, 1110-26.

Change of, 9869-9.

New, central authority over, advantages of, 1706-11.

Report of Sir A. Binnie to London County Council on available sources of supply 1894, 1281-9.

Staines Scheme. *See under that title.*

Storage, increase of in relation to supply, 18,049-71; 18,106-34.

Supplemental:

London County Council, report and resolution on, February 25 and April 21 1896, 4954-93.

London County Council, report on, July 1896, 5006-15.

Necessity for, Binnie, Sir A., views as to, 1135-6; 1279; 1309-11.

Thames, River. *See that title.*

Total daily in 1867, 1891 and 1896, 1264-6.

Total daily in 1897 from all sources, 9209; 9221-5.

Trade supplies:

East London Company, 13,087-9; 13,092;

13,192-200.

Local authorities, supply to, 3587-602; 3616.

New River Company, 22,713-5.

Tudor Street district, charge by agreement, 29,311; 29,314-7.

Waste, reduction of, 29,257-61; 29,311;

29,314-7.

Obligations of companies as to, 29,337.

Proportion per cent. of total supply, 3603-6.

Rates for, 3583-602.

West Middlesex Company, 26,020-3.

Wells. *See that title.*

Welsh Scheme. *See that title.*

(*See also under titles of Companies and Places Supplied.*)

Surrey, county of:

Amalgamation of Lambeth and Southwark and Vauxhall Companies proposed by, 11,955.

Bill, Metropolitan Counties Water Board Bill, 1896, views as to, 11,915-35.

Companies supplying, 9876; 9879.

Control:

Conference of October 1897 with Kent and Croydon authorities, resolution as to, 11,966.

Local Government Board, proposals as to, 11,941-9; 11,967-79; 11,993-2,009.

Views of Surrey County Council as to, 11,936-41.

Filters, inspection of, by medical officer of health proposed, 11,944.

Kingston, Corporation of, complaint as to supply, 11,942-9; 11,984-91.

Lambeth Company:

Amalgamation with Southwark and Vauxhall Company proposed by, 11,955.

Rates charged in, 11,951-8.

Supply, complaints as to, 11,984-91.

Local Government Board:

Control by, proposals as to, 11,941-9; 11,967-79; 11,993-2,009.

Letter of Surrey County Council to, on Purchase Bills of 1895, 11,909-14.

Mains passing through, 9397.

Purchase:

Conference of October 1897 with Kent and Croydon authorities, resolution as to, 11,959-65.

Croydon Rural District, purchase of company by Surrey County Council proposed, 12,210-32; 22,256-78; 12,285-9; 12,311-30.

 Salmon trout, introduction of into river, 23,774.
 Sewage farms, method of dealing with, 22,177-8; 23,539-46; 23,589-94.
 Southwark and Vauxhall Company, overdraught by, action with regard to, 1066-78; 1089.
 Staines Reservoirs Bill, arrangement as to minimum flow at Bell Weir, 20,637-9.
 Teddington Weir:
 Flow at, limit of, 22,188-9.
 Gauge at, 23,460-7; 23,622-5; 26,739-42.
 Unpopularity of, 6272-7.
 Water Board, formation on model of, proposed, 10,939-40.
 Wey, purification of, 23,532-3.
 Working of, 10,630-49.

Thames Ditton Reservoir, Deposit in, 19,402.**Thames, river:**

Abstraction from:
 Annual, percentage upon natural flow, table showing, 20,279-94.
 Authorised, 1061-93; 15,237; 28,689-91; 23,700-2.
 Commission, Lord Balfour's, report of, as to, 1138-218; 14,257-61; 14,271; 14,276; 14,283; 14,647-8.
 Drought of 1898, abstraction during, 15,237-43; 23,516-8.
 East London Company, 23,193-9.
 In 1895 and 1897, during each month, 9233; 19,080-105.
 Limit of:
 Penalty for excess over, 28,695-9.
 Relaxation of, 28,722-30.
 Local Government Board, vesting of power in, objections to, 28,719-20.
 Thames Conservancy, vesting of power in, advantages of, 28,721; 28,727-9.
 Without restriction, 23,512-23; 28,714-7; 28,741-56.
 Return of, made daily, 23,669-91; 28,700-2.
 Six-monthly average, views as to, 23,652-3; 26,744-7; 28,688-91.
 Southwark and Vauxhall Company, 17,222-3; 25,496-504.
 Bill of 1838, powers conferred by, 23,397-9; 23,512-23; 23,597.
 West Middlesex Company:
 Authorised draught, 26,109-12.
 Maximum draught 1898, 26,136-41.
 Analysis, system of, 22,003-5; 22,031-3; 22,063-4; 22,111-2.
 Bell Weir, limit of flow at, 18,607-8; 20,637-9; 23,398-9.
 Chalk, flow over below London, 18,919-33.
 Colour of water:
 Lake waters, comparison with, 22,132-4.
 Organic impurities, effect of on, 22,14-5.
 Depletion of, 10,863-75.
 Filtration, necessity for during low flow, 17,884-6.
 Floods:
 Organic impurities in, 22,034.
 Of 1892 and 1898, 22,035-61; 22,205-13.
 Of December 1898 and January 1899, 22,062-95; 22,097-106; 22,214-30; 22,231-4; 22,247-51.
 Richmond Weir, effect on river below, 23,439-53.
 Scouring effect of, 21,278-83.

Thames, river—cont.

Flow of:
 Flood, effect on, 20,849; 23,439-53.
 In 18'3 and 1896, on days when Chelsea Company closed intakes, 9451-65; 9477-82.
 In 1893 and 1898, 21,764-9; 21,098-103.
 Lea River, comparison with, 20,039-50.
 Navigation, flow necessary for, 23,732-57.
 Teddington Weir, flow over. See subheading Teddington Weir.
 Velocity at various points, 19,940.
 With draughts of 18½, 300 and 400 million gallons under conditions of 1838, and a minimum of 200 million gallons at Teddington, 23,163-238.
 Wye, comparison with, 18,141-8; 18,156-9; 18,192-211.
 Lambeth Company, draught of on, 15,867-80.
 Microbes:
 Filtered water, proportion of in, 21,473-511; 21,562; 21,563; 21,645; 21,652-6.
 Pathogenic, freedom from, 21,917-19; 23,835-43; 23,921-7.
 Unfiltered water, proportion of in, 21,503; 21,542-71; 21,646-50; 21,710-2; 21,723-7; 21,848; 21,983-94.
 Nitrites, non-injurious, 22,108-9.
 Old London Bridge, removal of, effect of on river, 19,976-82.
 Organic impurities:
 Chemical, effect on water, 22,107-17.
 Floods. See under that subheading.
 Microbes. See that subheading.
 Rainfall, effect on, 22,019-25.
 Oxidisation of water, 21,872-87.
 Penton Hook, flow at, limit of under Southwark and Vauxhall Company's Act of 1898, 23,597-9.
 Pollution:
 Causes of, 18,372-81.
 Thames Conservancy, action of as to, 1895-705.
 Vegetable matter, pollution by, 22,119-21; 22,126-7.

Available, Report of Lord Balfour's Commission on, 14,514-7; 14,531; 14,535; 14,543-9; 14,552-63; 14,578; 14,597; 18,558-639.
Average daily 1881-1897, 20,683.
Quality of, 8129.
Thames Valley, supply available from for future requirements, 23,712.
Walthamstow, depression of, 19,186-96.

Welsh Scheme:

Aqueduct:

Capacity of, 8557-9.
Cost of, 10,439-42; 18,264-85.
Per mile, 9815-8.
Disadvantages of, 18,243-6.
Length of, 8540; 9791; 9800-2; 10,439-42.
War Office, views of as to, 10,453.
Colour of water, 21,530; 21,889-93.
Construction, period of, 1815-7; 2,367.
Second instalment, commencement of, 9107-8.

Cost of:

Binic, Sir A., estimates of, 1279-83; 2067-99; 9045.
Distribution pipes, 9310-22.
Per million gallons, 1239; 1325.
Similar schemes, comparison with, 9803-36.
Staines Scheme, comparison with, 1325-55.
Pumping charges saved by, 9677-722; 9723; 9870-3; 10,408-12.

Supply:

114½ million gallons, 9441.
147 million gallons, 1279; 9443-5.
182 million gallons, 1258.
200 million gallons, 9445.
Total cost, for supply of 415 million gallons per day, 1258.

Deacon, M., Mr., estimates of:

Per million gallons, 8187-92; 8502-3.
Pumping charges saved, 8328-38; 8493-501.

Supply:

121 million gallons per day, 8321-5; 8477-81.
Comparison with cost of supply of 114½ million gallons per day under Staines Scheme, 8336.
133½ million gallons per day, 8304-26; 8645-54.

Dickinson, Mr., estimate for supply of 1000 gallons compared with cost of Thames water, 5137-9.

Hawksley, Mr., estimates of, 20,874-927.
Comparison with Staines Scheme, 20,913-27.

Hawksley, Mr. T. and Sir F. Bramwell, estimates of before Balfour Commission, 14,737; 19,722; 19,737-41; 20,629-31.

Hunter, Mr., estimates of, 20,143-61; 20,187-8.
Basis of, 20,263-9; 20,277a.
Total, 20,159.

Middleton, Mr., estimate of, 14,444-69; 19,602-13.

Aqueduct and head works, 18,265-88.
Basis of, 19,601-6; 19,688-95.
Dam, 17,866-9.

Elan Valley, Thirlmere and Vyrnwy Scheme, comparison with, 19,634-49.
Filtration charges, 18,363-71.
Interest, inclusion of, 19,614-34.

Mains between Elstree and service reservoirs, 14,799-805; 18,291.
Pumping charges, 14,843-74; 18,292-8.
Reservoirs at Elstree, 18,289-90.

Staines Scheme, comparison with, 14,715-20; 14,799-825.
Watershed area, 19,650-82.

Purchase question, bearing of on, 9488-512.
Sinking Fund, provision of, 20,196-207.
Total cost, 1288; 20,159.

Dam:

Cost of, 17,866-9.
Length and height of, 18,231.

Droughts of 1893 and 1898, effect of on, 23,230-52.
East London Company, expenditure on reservoirs, advantages compared, 24,061.

Welsh Scheme—cont.

Elan Valley, Thirlmere and Vyrnwy schemes, comparison with, 19,634-49.

Elstree, works at:

Cost of, 10,425-32;
Mains, 14,799-805; 14,808-25; 18,291.
Reservoirs, 9809-18; 18,239.
Storage capacity, 9793-4; 18,290.

Expenditure on immediately necessary, 9405.
Filtration of supply, 8575-9; 17,812-7; 18,363-71.
Lead poisoning, chemical treatment of water for prevention of, 21,836-7.

London County Council:
Undertaking of scheme, by London County Council for companies proposed, 5801-7; 5946-50; 6208-17; 6368; 6448-50.

Views of as to, 5214-7; 5231-4.
Mains between Elstree and service reservoirs, cost of, 14,799-805; 18,291.

Metropolitan Water Companies:
Attitude towards, 22,438.
Control over, 10,889-908; 22,517-33; 22,543.

Capability for undertaking scheme, 5941-5.
Compulsion as to undertaking of scheme proposed, 6368-79; 6450-65; 6467-82.

Microbes in Welsh water, 21,902; 21,912.
Necessity for, 9405; 10,443-5; 20,161-9; 20,212-4; 20,725-9.

Outside ratepayers, contribution to expenses, 25,756-9.
Oxidisation of water, 21,889-96.

Pumping:
Cost of, 14,826-74; 18,292-8.
Charges saved, 8328-38; 8493-501; 9677-722; 9728; 9870-3; 10,408-12.
Necessity for, 8423-7.

Quality of water:
Cumberland and Westmoreland lakes, comparison with, 28,884-98.
Physiological effect of, 28,887-93.
