

I cannot end this report without a reference to my predecessor, the late Sir Alfred W. Watson, K.C.B., who died on 7th May, 1936, when the present valuation, which he had supervised throughout, was nearing its completion. Tributes to his personality and to his career have been paid elsewhere, and those concerned with, or interested in, National Health Insurance will hardly need to be reminded of his unique services to this branch of our social system during the past quarter of a century. The long series of his reports and other published writings on this subject forms only a part of his contribution towards the establishment and maintenance of a sound financial basis for our National Health Insurance system. Not the least important of his publications were the reports on the first three valuations of approved societies, which more than played their part in this, the work which perhaps he had nearest to his heart.

I am, Sir,

Your obedient Servant,

G. S. W. EPPS.

APPENDIX.

RESULTS OF THE FOURTH VALUATION OF APPROVED SOCIETIES.

Notes.—(a) An “international” society (*see* Part I) is a society approved by the Joint Committee to operate in more than one of the four countries (England, Scotland, Wales and Northern Ireland).

(b) Where a society has transferred its engagements since the issue of the valuation report and prior to the date of the commencement of any scheme of additional benefits the approval number of the society is shown in brackets in col. (1) and the society to which its engagements have been transferred is indicated at the foot of the page. In each such case the figures entered under “Disposable Surplus” and “Contingencies Fund” for the transferee society relate to the combined society, and where this is a centralised society the symbol (‡) appears in col. (9).

(c) In column (2) the titles of societies have, where necessary, been contracted in order to bring them into the space available.

(d) In column (6) the amounts shown for the Benefit Fund are those given in the valuation reports, i.e., as adjusted by the prescribed method of valuing the investments.

(e) In Parts I to V, giving the valuation results of each society without branches (pp. 58 to 107), an asterisk in column (9) indicates that equality of assets and liabilities has been secured by a grant under Section 3 of the National Health Insurance Act, 1926, as subsequently amended. In the remaining parts, summarising the valuation results of branches (pp. 108 to 111), equality has been similarly secured in the cases indicated in col. (5).

RESULTS OF FOURTH VALUATION OF APPROVED SOCIETIES.

I. INTERNATIONAL SOCIETIES WITHOUT BRANCHES.

Approval No. (1)	Name of Approved Society. (2)	Year of Valuation. (3)	No. of Members.		Benefit Fund. (6)	Result of Valuation.			Contingencies Fund. (10)
